

EVOLUTION

EVOLUTION PERFORMANCE UPDATE

In response to rail industry requirements, to meet EN343 Class 4:4 the mesh lining has been removed from the Evolution Storm Coat and Bomber Jacket. In 2024, the entire range will be updated to meet class 4 breathability and class 4 waterproof with the new product codes below.

EVO100-NL PULSAR® Evolution Non Lined Storm Coat (Yellow)

EVO250-NL PULSAR® Evolution Non Lined Storm Coat (Orange)

EVO103-NL PULSAR® Evolution Non Lined Bomber Jacket (Yellow)

EVO253-NL PULSAR® Evolution Non Lined Bomber Jacket (Orange)

EVO101-NL PULSAR® Evolution Overtrousers (Yellow)

EVO251-NL PULSAR® Evolution Overtrousers (Orange)

EVO TECH

FABRIC TECHNOLOGY

3-LAYER LAMINATE FABRIC TECHNOLOGY

The fabric used throughout the Evolution collection is made up of 3 different layers: a hi-visibility outer polyester layer, a breathable and waterproof membrane layer designed to keep the water out whilst allowing perspiration to pass through and an inner backing layer to protect the laminate from getting damaged. All 3 layers are laminated together and work in synergy to protect against the harshest weather conditions, keeping you visible, dry, comfortable and fully protected from the elements. Laminate fabrics are technically superior.
